

COVID-19 UPDATE

March 16, 2020

Last week, we indicated that Guardian Capital Group Limited and all our subsidiaries and affiliates* (collectively “Guardian”) have well-established risk management and business continuity protocols to protect our employees and clients, and that we would be ready to enact these policies. Effective today, we have implemented our Business Continuity Plan, a component of which is a corporate-wide policy encouraging remote work from home for all associates.

Guardian will continue to proactively monitor developments across various geographies and respond accordingly. Our focus for all decisions is to ensure the safest environment for our employees, while ensuring our clients have minimal service impacts.

As your trusted partner, Guardian will continue to closely monitor the situation surrounding the novel coronavirus (COVID-19) and will be providing regular updates on our policies and operations.

We have confidence in the actions we are taking to safeguard our people, our clients and our communities.
